Sole Source and/or Proprietary Justification

Requisition No. **R700038**

Date: **12/14/16**

This form is to be used to aid departmental staff in relating information necessary in the process of requisitions on a sole source and/or proprietary basis. Your cooperation in answering the questions listed below will assist the purchaser in handling your order expeditiously. Please complete the form and forward to HUB and Procurement Services. If more space is required, feel free to attach additional pages. **NOTE: For your convenience, this is a fill-in form. Adobe Reader required.**

1. Description of item (if commodity: make, model no., etc.; if service: detail of type of service):

Qty (2) SimUCath Beta Tester (1) SimUCath with associate Software, Male and Female genitalia attachments, Simulated urine for use with the device User's Manual for technicians and instructors, Online link to instructional video for use and care of the device as well as "patient" training. Qty (2) SimUSTick Beta Tester (1) SimUSTick with associate Software Simulated blood for use with the device, User's Manual for technicians and instructors, Online link to instructional video for use and care of the device as well as "patient" training. 

2. Name of known source for item: Manufacturer? ☒ Yes ☐ No

SimUCare
113 J and M Drive 2nd Floor New Castle, DE 19720

3. What feature or functions are unique (proprietary) to this item?

No other item on the market provides the same level of realism to enhance student learning. The product is designed to be used with standardized patients. Provides specific skill training opportunities to enhance student learning.

4. Briefly explain how the unique features or functions are essential to the purpose for which the item is needed.

No other item on the market provides the same level of realism to enhance student learning. The product is designed to be used with standardized patients. Provides specific skill training opportunities to enhance student learning.

5. List any source other than the known source that manufactures or supplies similar items or items with similar functions.

None.

6. Why are the other sources not satisfactory?

Do not have the same features.

7. Will the item be used with existing equipment?

If yes, -as a repair/replacement part?

-as component to be interfaced?

-as an accessory?

-to match existing equipment?

-for reason of interchangeability?

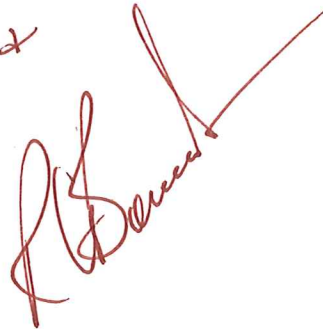

<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	Yes
<input type="checkbox"/>	Yes
<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	Yes
<input type="checkbox"/>	Yes

Hi Gina,

We will be paying for this from 200185. We are looking at two sets of this purchase one for each campus. It looks like we may have to do a sole source because the combined price will be over \$10K. See attached.

Hi Brian!

Thanks for your valuable time on the phone today. Sorry it took me a couple of hours to shoot this information your way, I've been coming down with a cold.

Attached is the Product Overview, Beta Testing Program Brochure, and a quote. The brochure will note December 31st as the deadline for purchase orders but I've extended that to January 13th for your quote.

You can find a product demonstration video through our YouTube channel (link supplied below)

TEXAS A&M UNIVERSITY

"These products solve the problem that a lot of us have in simulation. When you practice on a piece of plastic, it's just not the same experience for the student."

*Suzie Kardong-Edgren
Editor for Clinical
Simulation in Nursing*

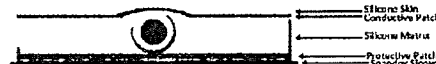

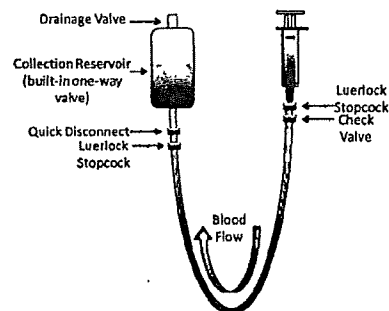

SimUStick™ & SimUCath™ (Coming Spring 2017)

These unique products were designed to put the patient at the center of simulation education. Both were invented by Amy Cowperthwait APRN, BC-ACNS, National League for Nursing Simulation Leader, and INACSL's Hayden-Vanguard Lectureship Awardee; to facilitate a seamless transition from simulation education to bedside care.

SimUStick is a wearable sleeve that has been designed with your ease of use in mind. It is easy to put on your Standardized Patient, clean, and change the veins at the end of each simulation day (if necessary). The circulating venous system will accommodate flashback for IV insertion, medication / fluid administration, and blood draws throughout the simulation experience. This product allows learners to insert an IV safely and authentically on a standardized patient.

- The specialized dermal layer will cue the SP when the skin has been pierced with an IV catheter or phlebotomy needle allowing them to respond appropriately.
- The hypodermic layer will contain the easy to replace venous channels.
- The protective layer will prevent the SP from any potential for needle sticks.

SimUCath is a pair of shorts with integrated sensor technology. The sensors are located at the entrances to the urethra and bladder. The urethra sensor signals the Standardized Patient to demonstrate the discomfort of the catheter insertion. The bladder sensor triggers the flow of simulated urine to begin while cueing the Standardized Patient that the catheter has entered the bladder. The simulated urine flow and interchangeable genitalia allow you to include both straight or indwelling urinary catheter insertion into your simulation education curriculum.

Clinical trials published in The Clinical Simulation in Nursing Journal found that when nursing students practice using SimUCare® products, they are:

- 3X more likely to explain procedures to their patients
- 4X more likely to ask questions of their patients
- 5X more likely to offer reassurance to their patients
- 6X more likely to self-identify patient safety issues

CLINICAL
SIMULATION
in NURSING

Beta Testing Program

SimUCare is excited to offer Beta Testing of its next two highly innovative products, SimUStick® and SimUCath®

- January 1st-March 16th, 2017
- (10) Testing sites available for each product
- Purchase Order Due Date: December 31st, 2016
- You agree to provide: (1) Initial Survey, (5) Daily Surveys, (1) Final Survey
- SimUCare agrees to provide: Discount off introductory retail price, Complimentary full product upgrade at the conclusion of Beta Testing

If you have any questions please contact:

Subject: RE: Simucare

The combined price will be over \$10K for both campuses so a sole source justification form will probably be needed. Gina will get with you on that.

Shirley,

Here is the quote for the simucare beta test. I would like to get an additional set for RR if it is possible.

Hi Brian!

Thanks for your valuable time on the phone today. Sorry it took me a couple of hours to shoot this information your way, I've been coming down with a cold.

Attached is the Product Overview, Beta Testing Program Brochure, and a quote. The brochure will note December 31st as the deadline for purchase orders but I've extended that to January 13th for your quote.

You can find a product demonstration video through our YouTube channel (link supplied below)

SimUCare Product Medley

All the best,
Adam

Good morning Adam,

Dr. Rickie Bonner forwarded your information to me regarding the beta testing of your products. I am wondering if that is still a possibility. If so, we would be interested.

Best,

Brian

Federal Exclusion

Agencies and co-op members may wish to check the list of vendors excluded from doing business on the federal level. The System for Award Management, or SAM [↗](#), can be used as a resource for purchasing entities.

According to Statewide Procurement Division rules, other debarment activities from other entities may be considered as possible indicators of vendor responsibility.

Vendor Information on Payments

The Search State Payments Issued application provides vendors with payment details.

They can also sign up in the application for Advance Payment Notification.
