	Currency	Total Price Exclusive of Taxes
	USD \$	21,520.89

*The "Net Annual Unit Price" is the price for the standard period for ALC/ASC and YLC/YSC revenue types. In the event of revenue types whose standard period is not annual, this column will show the net unit price for the relevant standard period. For example, QSC licenses have a standard period of 3 months.

** The "Net Unit Price for Period" and "Total Price for Period" are respectively the unit and total price for the applicable period which, due to anniversary date or pre-ordered multiple period durations, could be greater or less than the standard period.

If VAT or other taxes apply, they will be added at the time of invoicing.

Unless otherwise agreed, the price for the DS Offering charges indicated above is the price of the previous year plus the last percentage of increase applicable to the license of a DS Offering in a given country, as published at <http://www.3ds.com/terms/price>. However, such increase shall not exceed the increase which would have resulted from the revision of the price of the license charges according to the applicable price index since the date of the last price increase published by DS at <http://www.3ds.com/terms/price> for the related DS Offering.

Should you have any questions or concerns, please contact Dassault Systèmes sales at 3DS.VS.North.America@3ds.com.

Notwithstanding anything to the contrary, for BIOVIA OR ENOVIA QUALITY AND REGULATORY MANAGEMENT DS Offerings available in DS portfolio, by signing or otherwise accepting this Renewal Quotation, Customer hereby agrees that such DS Offerings, including those listed herein above, for which the right to use was originally granted under any prior BIOVIA or QUMAS agreement, will be exclusively subject to the terms and conditions of the CLOSA (Direct) - USA - V12.1.1 which has been provided with this Renewal Quotation. For any other DS Offerings, they will remain subject to the terms and conditions of the agreement that currently applies between Customer and DS.

Customer also acknowledges and agrees that all the DS Offerings and/or their Support Services indicated above will be renewed for the license periods and the license charges indicated above.

Sincerely,
Dassault Systèmes

Special Instructions

Please do not mail an invoice, just email to invoices@tamu.edu
