1.1 Introduction

Texas A&M University Health Science Center, subsequently referred to as TAMUHSC, is seeking Request for Proposals to enter into an agreement to provide a Marketing and Communication Plan for the Center for Optimizing Rural Health (CORH) inside the A&M Rural and Community Health Institute (ARCHI).

By submitting responses, each respondent certifies that it understands this RFP and has full knowledge of the scope, nature, quality, and quantity of the work to be performed, the detailed requirements of the services to be provided, and the conditions under which the services are to be performed. Each respondent also certifies that it understands that all costs relating to preparing and responding to this RFP will be the sole responsibility of the Respondent.

**RESPONDENTS ARE CAUTIOUS TO READ THE INFORMATION CONTAINED IN THIS RFP CAREFULLY AND TO SUBMIT A COMPLETE RESPONSE TO ALL REQUIREMENTS AND QUESTIONS AS DIRECTED.**

1.2 Brief History and Current Organization

The Texas A&M Health Science Center provides the state with health education, outreach and research through campuses in Bryan-College Station, Dallas, Temple, Houston, Round Rock, Kingsville, Corpus Christi and McAllen. Its five colleges are the College of Dentistry, College of Medicine, College of Nursing, Irma Lerma Rangel College of Pharmacy and School of Public Health. Other units include the Institute of Biosciences and Technology, the Rural Community Health Institute and the Coastal Bend Health Education Center.

TAMUHSC is establishing the Center for Optimizing Rural Health (CORH) inside the A&M Rural and Community Institute (ARCHI) at Texas A&M University College of Medicine. The Center will concentrate its efforts on helping hospitals and communities recognize that their primary priority is to determine how to sustain critical health care services locally. This may not include maintaining a hospital, but rather “right-sizing” care to match the resources, demographics, geography, and availability of providers in the community. The Center will work with hospitals and their communities to determine feasible health care options that will be supported by the community, meet community needs, and most importantly offer local, quality care.

Health care providers and communities need to adjust to ensure ability to retain access to health care in rural America. ARCHI has fifteen years of experience working with rural hospitals to identify issues and develop unique solutions. This experience, combined with our expertise and collaborative partners across the nation, firmly establish ARCHI as the right organization to help rural hospitals via the Center for Optimizing Rural Health.

ARCHI received a grant from Health Resources and Services Administration (HRSA) that establishes them as national technical advisors. ARCHI is working with the Robert Woods Johnson Foundation. The work being performed under this RFP will complement the work of the Center done in conjunction with a grant from HRSA.

SECTION 9
EVALUATION CRITERIA FOR AWARD

EVALUATION CRITERIA FOR AWARD

9.1 Evaluation Information

Texas A&M University will utilize an evaluation team for the evaluation of this RFP. Texas A&M University will evaluate and make the award on the proposal that is determined to be the “Best Value” to the State based on, but not limited to the criteria listed above.

All proposals must be complete and convey all of the information requested to be considered responsive. If the proposal fails to conform to the essential requirements of the RFP, Texas A&M alone will determine whether the variance is significant enough to consider the proposal susceptible to being made acceptable and therefore a candidate for further consideration, or not susceptible to being made acceptable and therefore not considered for award.

By submitting a proposal, Respondent acknowledges and accepts [a] the evaluation process, [b] the evaluation factors listed in the RFP Questionnaire, [c] the scope of this engagement (Section 1), [d] the terms and conditions of the Agreement (Section 4), [e] all other requirements and specifications set forth in this RFP, and [e] that some subjective judgments must be made by the University during this RFP process.

Should Texas A&M be unable to agree on final Agreement terms and conditions with the highest ranked proposer, a Texas A&M representative(s) will then negotiate with the second-ranked proposer or reissue the same or modified version of this RFP.

Texas A&M University reserves the right to reject any and all proposals.

9.2 Demonstration/Presentation

During evaluation, Texas A&M may request an on-site demonstration/presentation of proposer(s). The team may consider the demonstration/presentation in the evaluation criteria. The purpose of the on-site demonstration/presentations is for clarification or to amplify the materials presented in any part of your submission. However, vendors are cautioned that the evaluators are not required to request clarification; therefore, all submissions should be complete and reflect the most favorable terms available from the offer.

9.3 Evaluation Criteria and Weights

Each proposal shall be evaluated on the ability to meet the university’s minimum requirements in Section 2 and to provide the best value to the University. Proposal shall be evaluated by assigning points to each of the items below. The maximum number of points that can be assigned to each item being evaluated are as follows:
